Lakefield Wireless Broadband

Wireless Broadband is one of the fastest growing means of high-speed Internet access. Combining the advantages of high-speed Internet service with the advancement of wireless technology, Lakefield Wireless Broadband delivers an unbeatable combination offering high-speed Internet access from a local company with unsurpassed customer service.

Lakefield Wireless Broadband is a service that

uses radio signals to deliver high-speed Internet access through the air. An antenna outside your home or office converts those signals to a wireless router giving all users on your network access to Lakefield Wireless Broadband simultaneously.

No telephone or cable service is needed to have wireless broadband. Standard DSL requires that the customer be located within 12,000 to 18,000 feet of their local Telco for

DSL to operate effectively. Wireless Broadband is the perfect solution for those customers who are beyond that range.

Lakefield Wireless high-speed Internet service provides speeds from 768K up to 3MB. Additional bandwidth can be added in just minutes to meet your connection needs.

Call 758-2211 or 553-2211 to find out if your location is within our current and ever expanding wireless range.

Protecting Your Non-Published Number

With accessibility to many different Internet search sites, it is more important than ever to protect your non-published number. Do not give out your non-published number to anyone, including areas such as pizza delivery, prize giveaways, etc. Web sites like 411.com and whitepages.com publish this information from those sources and share with other sites.

If you are paying for a non-published number and find your telephone number at 411.com or

whitepages.com, you should see a link at the bottom of the screen to remove it. The web sites we contacted suggest to check back frequently to make sure your information does not reappear as their database is constantly updated from many different sources.

Another option you may want to consider is adding

CallerID line block. This feature will prevent your telephone number from being transmitted to other people when placing a call. You could also dial *67 before placing your call to block your telephone number when you make that call.

Lakefield is not affiliated with either 411.com or whitepages.com and the 411 service we provide is totally safe. Also, please be assured that we will never give out your Lakefield non-published number to anyone for any reason.

Account Privacy

Customer Proprietary Network Information (CPNI) is the protection of your account information and is very important. In order to provide you with excellent customer service, we ask that you please be aware of the CPNI rules that the Federal Communications Commission has imposed on all telecommunication providers (this includes telephone and cellular). CPNI rules require that we obtain verification from a customer before we provide any information regarding their billing account. To protect your information we must adhere to the following rules:

- Customers requesting information in person will be required to provide a photo ID

- Customers requesting information over the phone will be required to provide us with the account password. If a password is forgotten the customer will have established a "verification question" and "answer" that will allow us to provide or reset the forgotten password. Providing the authorization code on the bottom of the bill would also suffice.

Customers not able to provide proper and required verification will only be allowed to receive their account information through the mail. The information may only be sent to the address on the customer's account.

Also, at this time, we encourage customers to make any name changes to their account that would make account access easier for those who need to inquire about your account. For example, adding a care-giver, your spouse's name - if the account is listed in only one spouse's name, or adding a daughter, son, or anyone else you give permission to access the account. Please be aware that account access can only be granted to persons over the age of 18.

If you have any questions regarding CPNI, feel free to call either of our offices at 758-2211 or 553-2211.

Digger's Hotline

Spring is around the corner and that means warm weather projects are too. Damage to buried facilities can pose a serious safety risk along with a financial liability. Remember to

FIRST call Digger's Hotline three business days before you dig! With one call, buried telephone and fiber optic cables along with any gas and power lines will be located and marked. Simply dial

811- Digger's Hotline- It's the law! The call is free, repairing buried lines is not.

Donate Your Used Cell Phones!

Lakefield is dedicated to helping the community. One of the ways we do this is by collecting used cell phones to donate to the Manitowoc County Domestic Violence Center.

The Domestic Violence Center uses some of those cell phones to give to victims to use as a 911 phone. These are cell phones (with no service) that they give out to victims who do not

have phones at home or do not have cell phones.

The remaining cell phones are sold to Shelter Alliance. Shelter Alliance is the largest cell phone recycling program in the United States. Through this program, organizations of all types are able to raise funds through the collection and recycling of used cell phones. The funds raised through Shelter Alliance are used to support services the Domestic Violence Center offers.

What does Shelter Alliance do with the cell phones they receive? If the cell phone has a "re-use" value, they are refurbished and used as is or are used as repair parts for other refurbished phones. If the cell phone does not have a "re-use" value, they are shredded during a metal refining process and recycled through a zero landfill process.

If you have used cell phones that you would like to donate to this cause, please drop them off at either of our Lakefield locations.

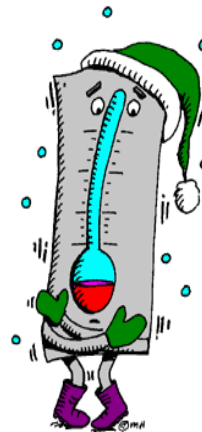

Tidbits of Information

Dates to Remember:

- March 31 Directory updates deadline
- April 2 Offices open 8am-12pm– Good Friday
- May 31 Offices Closed- Memorial Day

Recipe Corner

Lemon Poppy Seed Dressing

Ingredients:

- 1 C. Oil (olive, salad or your favorite)
- 1/3 C. Cider Vinegar
- 1/4 C. Lemon Juice
- 1/2 C. Sugar
- 1 Tbsp. Poppy Seeds
- 1 tsp. Salt
- 1 tsp. Ground Mustard

Directions:

In a jar combine the ingredients and shake well.

Just before serving toss a generous amount on your salad.

This dressing is especially good on a spinach and spring lettuce mix with raisins and sliced almonds. Garnish with croutons.
